

COVID-19 Town Hall Meeting

February 2, 2021

Frequently Asked Questions

Who are the members of the college's COVID-19 Taskforce?

Dee Nelons

Vlad Samoylenko

Valerie Martinez

Chelsea Lindquist

Hamilton

Yolande Berg

Chuck Davis

Steve Mackay

Marcus Harvey

Josh Clearman

Agnes Figueroa

Neph Dummer

Steve Ashpole

DeAnne

Frequently Asked Questions

What is the difference between Gov. Inslee's higher education proclamation and the Healthy Washington Plan?

- **[Proclamation 20-12.2](#) sets minimum protocols higher education institutions must follow to bring students safely back to campus.**
- **[The Healthy Washington plan](#) is a region-by-region phased plan for resuming social gatherings and reopening businesses and industries in Washington.**

Frequently Asked Questions

Does the college have to follow both the higher education proclamation and the Healthy Washington plan?

Yes, colleges have to follow both the higher education proclamation and the Healthy Washington Plan.

Generally Speaking:

- **Institutional activities (classroom/labs) are governed by the higher education proclamation.**
- **Social gatherings and non-instruction activities that have parallel activities out in the community fall under the Healthy Washington Plan and the business guidance attached to that plan.**

Frequently Asked Questions

Some activities are addressed in both plans.

Activity	Proclamation 20-12.2	Healthy Washington and business guidance
Instructional activities (classrooms/labs)	X	
Computer labs	X	
Dining halls	X	X
Social gathering size limits		X
Libraries		X
Fitness centers		X
Venues (convention centers)		X
Student residence halls	X	Indoor gatherings are banned under phase 1 of the Healthy Washington plan

Frequently Asked Questions

What's the difference between the former Safe Start Washington plan and the new Healthy Washington plan?

The Healthy Washington Plan replaced the Safe Start Washington Plan on Jan. 11. The key differences are:

- **Phases are no longer determined on a county-by-county level. Instead, they are based on eight regions. Those regions are drawn largely around the emergency medical services regions used for evaluating healthcare services:**

Frequently Asked Questions

- **Puget Sound: King, Pierce, Snohomish**
- **East: Adams, Asotin, Ferry, Garfield, Lincoln, Pend Oreille, Spokane, Stevens, Whitman**
- **North: Island, San Juan, Skagit, Whatcom**
- **North Central: Chelan, Douglas, Grant, Okanogan**
- **Northwest: Clallam, Jefferson, Kitsap, Mason**
- **South Central: Benton, Columbia, Franklin, Kittitas, Walla Walla, Yakima**
- **Southwest: Clark, Cowlitz, Klickitat, Skamania, Wahkiakum**
- **West: Grays Harbor, Lewis, Pacific, Thurston**

Frequently Asked Questions

- There are only two phases instead of four. At the time this publication was written (Jan. 20), all eight regions were in phase 1 under the new plan. For the most part, phase 1 restrictions align with the restrictions under the previous plan (the Nov. 15, 2020 restrictions). However, some restrictions were eased in areas like indoor fitness centers and outdoor social gatherings.
- Regions can advance to phase 2, or slide back to phase 1, based on certain metrics around case rates, hospital admission rates, positivity rates and ICU capacity.

Frequently Asked Questions

- **Regions can advance to phase 2, or slide back to phase 1, based on certain metrics around case rates, hospital admission rates, positivity rates and ICU capacity.**
- **There's no application process to move through the phases. The state will look at the metrics every Friday and determine whether regions will move backward or forward the following Monday. Regions can check their status on the state's COVID-19 risk assessment dashboard.**

Puget Sound Region: Pierce County, King and Snohomish currently in Phase 2

Frequently Asked Questions

Is the campus open to the public during Healthy Washington Plan?

- **No, the public is not allowed on-campus during Healthy Washington Plan.**

Frequently Asked Questions

What are the events requiring Self-Quarantine?

- Travel outside of Washington State.
- Participation in a “Gathering” that is currently considered “prohibited” under the Governor’s emergency orders.
- Exposure to a known positive case of COVID-19.
- Testing positive for COVID-19.

You may return to campus only after you SELF-QUARANTINE FOR 10 DAYS, SYMPTOM-FREE. If symptoms occur during the 10 days, you must extend the quarantine period to 14 days and get tested. Please keep your supervisor/instructor informed throughout the quarantine period.

Frequently Asked Questions

What about travel?

On Jan. 12, the CDC issued an order requiring all air passengers arriving to the US from a foreign country to get tested no more than three days before their flight departs and to provide proof of the negative result or documentation of having recovered from COVID-19 to the airline before boarding the flight. The order will take effect on Jan. 26. Until then, Gov. Inslee's advisory and restrictions still stand:

- **Gov. Inslee on Nov. 13 issued a public travel advisory recommending a 14-day quarantine for interstate and international travel.**
- **On Dec. 21, the governor made the quarantine a requirement for anyone entering Washington state after visiting the United Kingdom, South Africa, or other countries experiencing a new COVID strain, which was first detected in the United Kingdom.**

Frequently Asked Questions

When are students, faculty and staff eligible for vaccines?

The Department of Health has created two new tools to help the general public find out which vaccination phase they're in:

- **Washington's COVID-19 vaccine phases illustration**
- **Phase Finder**

Frequently Asked Questions

Do college health care faculty and students qualify under the A1 and A2 vaccination schedule, and whether our entire faculty will qualify under phase B2 like K-12 teachers and staff?

- **The Department of Health has advised SBCTC that our faculty and staff are prioritized with people in the community doing similar high-risk, in-person activities where it is difficult to maintain six feet of physical distancing. Examples include nursing faculty and students engaged with direct patient care, and campus child care workers engaged with providing child care.**
- **In general, though, higher education faculty and staff will not be treated the same way as K-12 schools because people in schools are more likely to have closer, physical contact with students.**

Frequently Asked Questions

- **The Department of Health has also advised SBCTC that the goal is to vaccinate 70% of adults by June.**
- **On Jan. 19, Gov. Inslee announced that Washington state would immediately enter phase B1 and include people who are 65 and older (previously it was 70 or older). This decision follows guidance released by the CDC on Jan. 12.**

Frequently Asked Questions

Should I get the COVID-19 vaccine if I already had COVID-19?

- Even people who have already gotten sick with COVID-19 may benefit from the vaccine, according to the CDC.
- Here's what we know. COVID-19 can lead to serious illness and long-term complications, even in younger people and those without underlying medical conditions. We also know that it's possible for someone who has already had COVID-19 to be re-infected, though this is not common.
- On the other hand, we don't know how long natural immunity to COVID-19 — the protection that results from having been sick — lasts. It's not clear if the strength or duration of natural immunity varies based on the severity of the initial illness. We also don't know how long immunity conferred by vaccines lasts.

Frequently Asked Questions

Where can I find more information?

- **College's COVID 19 Resource Page**

COVID-19 safety rules

- **Visit the following websites for more COVID-19 safety information:**
- **Gov. Inslee's Healthy Washington Plan: <https://bit.ly/3i4Koc2>**
- **Higher education proclamation 20-12.2: <https://bit.ly/2HaJ7T2>**
- **Reopening guidance for businesses under Gov. Inslee's Healthy Washington plan: <https://bit.ly/33dP2Pp>**

THANK YOU!
