

Assessment Committee

Instruction Conference Room M323L

February 13<sup>th</sup>, 2018 11:00 – 12:00 PM

Attendee's		
Bill Swarens	Bryce Battisti	Jon Bolas
Mike Woods		Shawn Adams
Blake Ingram	Paula Grow	

I. Call to Order

The Assessment Committee meeting was called to order by Bill Swarens at 11:05.

II. Approval of January 2018 Minutes

Bill motioned to approve minutes. Shawn Seconded approved and no abstention.

III. Bryce Web site update for the assessment committee one link not working.

IV. **Graphic for website redesign**

Overview: The Website is being redesigned with diagrams, a new color scheme and short descriptions. The website should be used as a resource to address questions regarding Assessment.

1. What does the Assessment Committee do?

Student learning and document performance of student learning is the focus of the survey. Video on website to focus on student learning.

Tools for writing student learning outcomes finally on the website and it is called BOB

Describes how it works and the click to the next button and put in the information and then to the next and after that is all done you would have your objectives.

Paula and Bryce sat down and worked through it like they would be showing someone how to do it and Mike Woods would like to make a training video for a resource for everyone to learn how to use BOB. Could get a certification the committee would all do it and get the

certification and then we would all be able to do it. What would be the least number of steps to get it done?

Blooms Taxonomy on the web site to help them remember what it is. In writing Course level outcomes it makes it easy to do by using their wording to plug in to the objectives.

Assessment dashboard to show that Jon has made up for us, so we can look at programs to show how many have chosen human diversity as parts of their programs. We can use it to look anything that is on the ORC spread sheet it will be able to show us the results.

Community of practice of all of the colleges that get together to work together with the problems that we are having in the state with learning outcomes.

Met a lady at this meeting and she had said that she spends a lot of time on the Bates website learning how she can make her website at Seattle pacific better , form all the work that we have done .

The survey this is how it all works, and the survey results from the last year. Looked at it and found that there were a lot of repeats so we have had 40 results that we could use. There are 46 programs on the list and only 26 have actually responded and filled out the survey. Gather information before winter quarter, discussion on the results of the survey and how to improve the results going forward. 1 Programs to approach to see if we could have them complete the survey. Personal touch may help improve our results.

Action: Split up the list and give it to committee members to help with approaching the staff to fill out the survey. To approach the dean at south campus to get someone to join our group. Some of them are going through tenor. Bryce will send out a little.

MCO reviews will be part of the letter

Nomination for chairperson for the next year please look deep in your souls. Bryce is the still chair according to Al Griswold.

New Canvas shell that has been built and modules built, MCO's to be approved, have been approved, meeting minutes, meeting agenda. Discussions are also there. Use of speed grader suggestion from Tim Trussler (recording stopped have no other information to place in the minutes)

V. Next meeting March 13<sup>th</sup>, 2018 11:00-12:00pm M323L.
