This week Walsh Concrete and the subcontractors on site completed the forming and layout of the North end of the Level 2 deck. This is in preparation of the concrete placement that will take place on Saturday the 26th of September.
The formwork and shoring between Level 1 and 2 on the South end of the building was transferred up to form and shore the South Level 3 deck. After this was completed reinforcing and PT tendons started to be installed for the Level 3 deck placement next week.
The Level 3 Core reinforcing was installed this week and the formwork was being flown in and set today in preparation for the Level 3 Stair Core placement.
Walsh Concrete worked on forming the rest of the Shotcrete Wall along the North end of the site. This included setting formwork and installing rebar. The Shotcrete Wall will be placed on Saturday the 26th of September after the South end of the Level 2 Deck.

Food Lifeline
The donation box for Food Lifeline has been set up in the Walsh offices at Bates. Food Frenzy will be running through October 2nd. So far, we are off to a good start and hope to get a lot more before the end of the Food Frenzy.
