Bates Technical College

Applied Business Management AAS-T Degree

to

Highline College

BAS in Business Management Degree

2024-2027 Articulation Agreement

July 16, 2024

Purpose

Highline College (HC) and Bates Technical College (BTC) hereby established this articulation agreement to provide a path to the Highline College, Bachelor of Applied Science (BAS) in Business Management. This agreement is effective immediately and will remain in force until either party gives the other party written notice of withdrawal from the agreement. Both parties agree to review and revise the agreement when related curriculum changes are made at either institution or at the request of either party.

Introduction

This agreement establishes a path to a BAS degree at HC in Business Management for BTC students who successfully complete the AAS-T degree in Applied Management.

Articulation Principles

- All HC educational requirements must be met prior to the granting of the baccalaureate degree.

- In applying to HC, students must meet all of HC's application deadlines and admission requirements to participate in this agreement. Admission to the BAS Business Management program is selective; candidates are admitted based on admissions requirements.

- A minimum cumulative grade point average of 2.25 is required for admission to, and completion of, the HC Business Management BAS, and no less than a 2.0 on any course that transfers to HC.

- HC will accept 90 credits of the AAS-T degree that include 35 credits of general education. These credits will apply toward completion of BAS in Business Management. Additional units may be transferred at the discretion of HC Business Management. In all cases, transfer students must follow HC's General Education and Graduation requirements when completing these components of the program at BTC. Additional credit hours taken at BTC are recognized as important, but do not count toward upper division credits required by the BAS program.
- The AAS-T degree with INFO 101 and ACCT 205 will satisfy the pre-reqs of BUSN 216 and BUSN 218.
