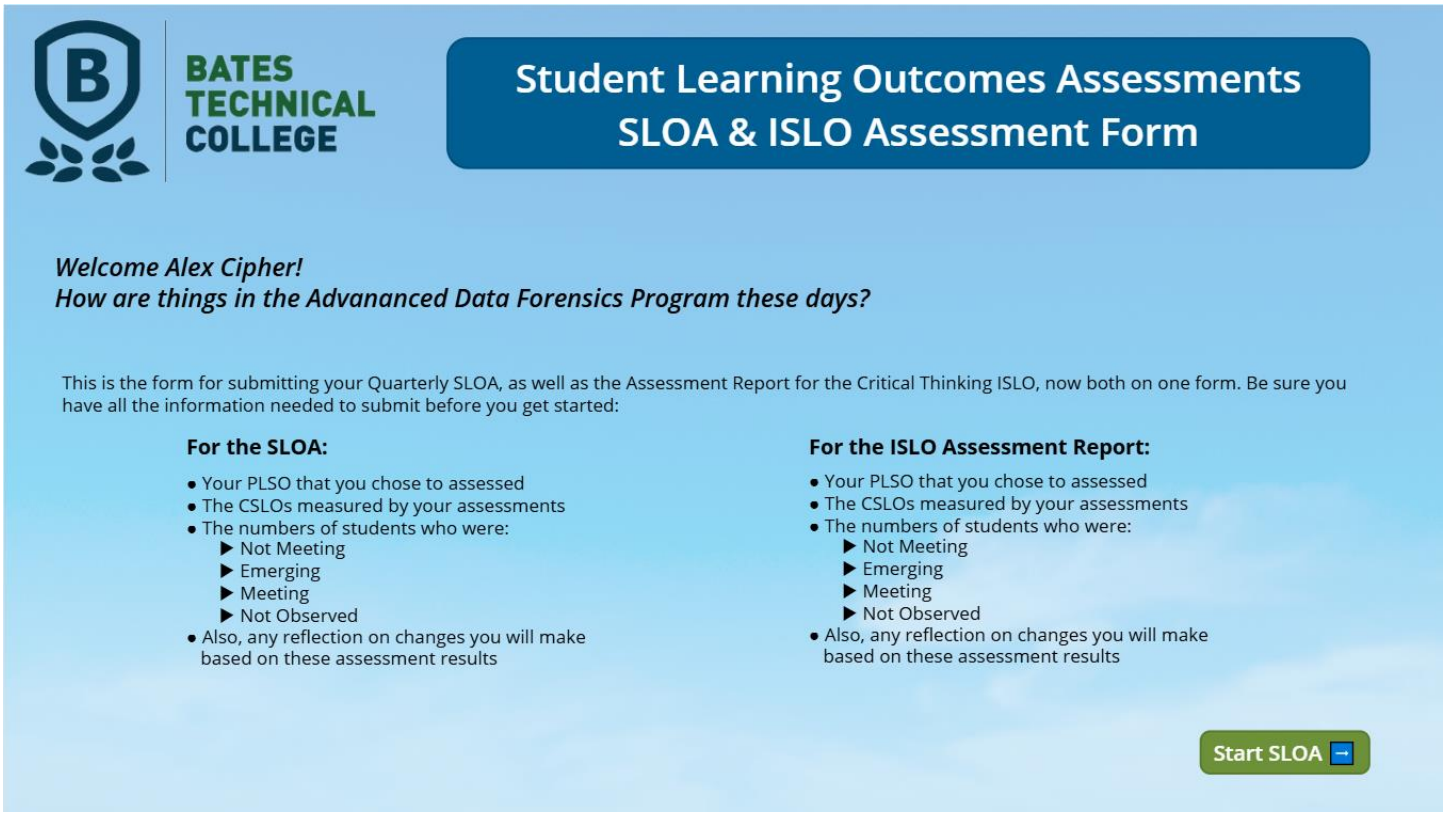
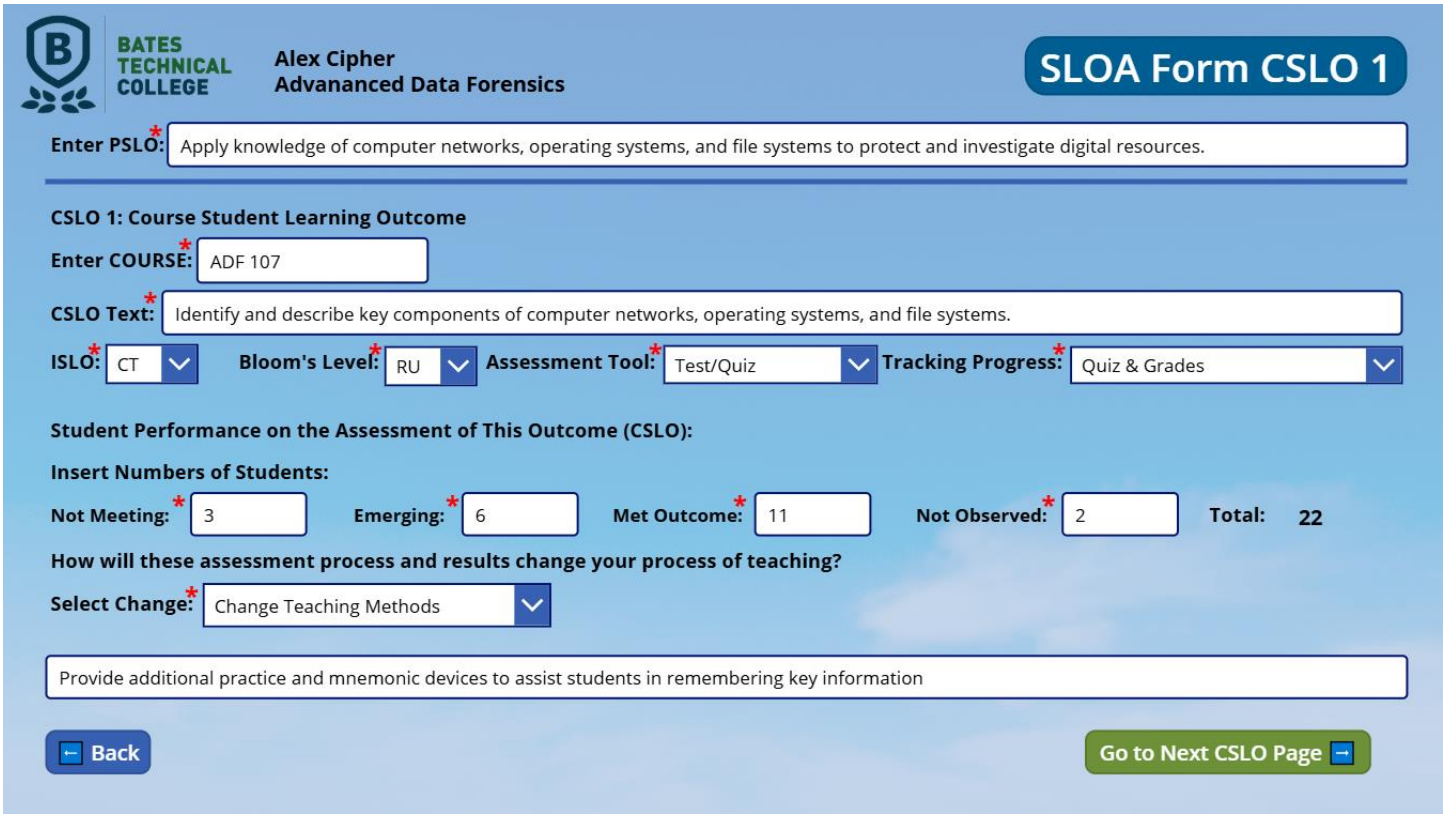
Student Learning Outcomes Assessment
& Institutional Student Learning Outcomes Assessment

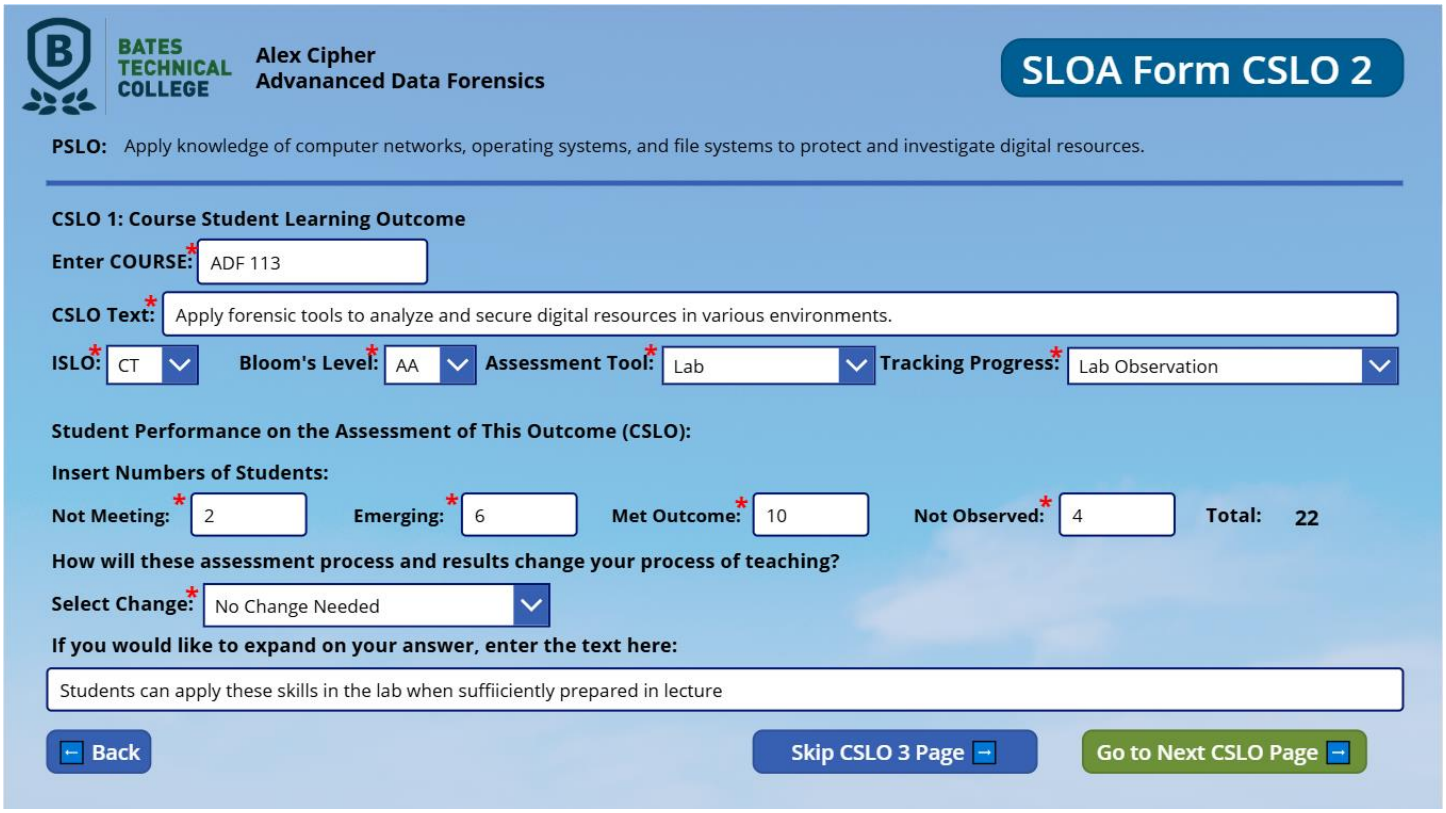
Welcome & Instructions Screen



SLOA: PSLO & CSLO 1 (Enter the PSLO and the details of the first CSLO assessment)

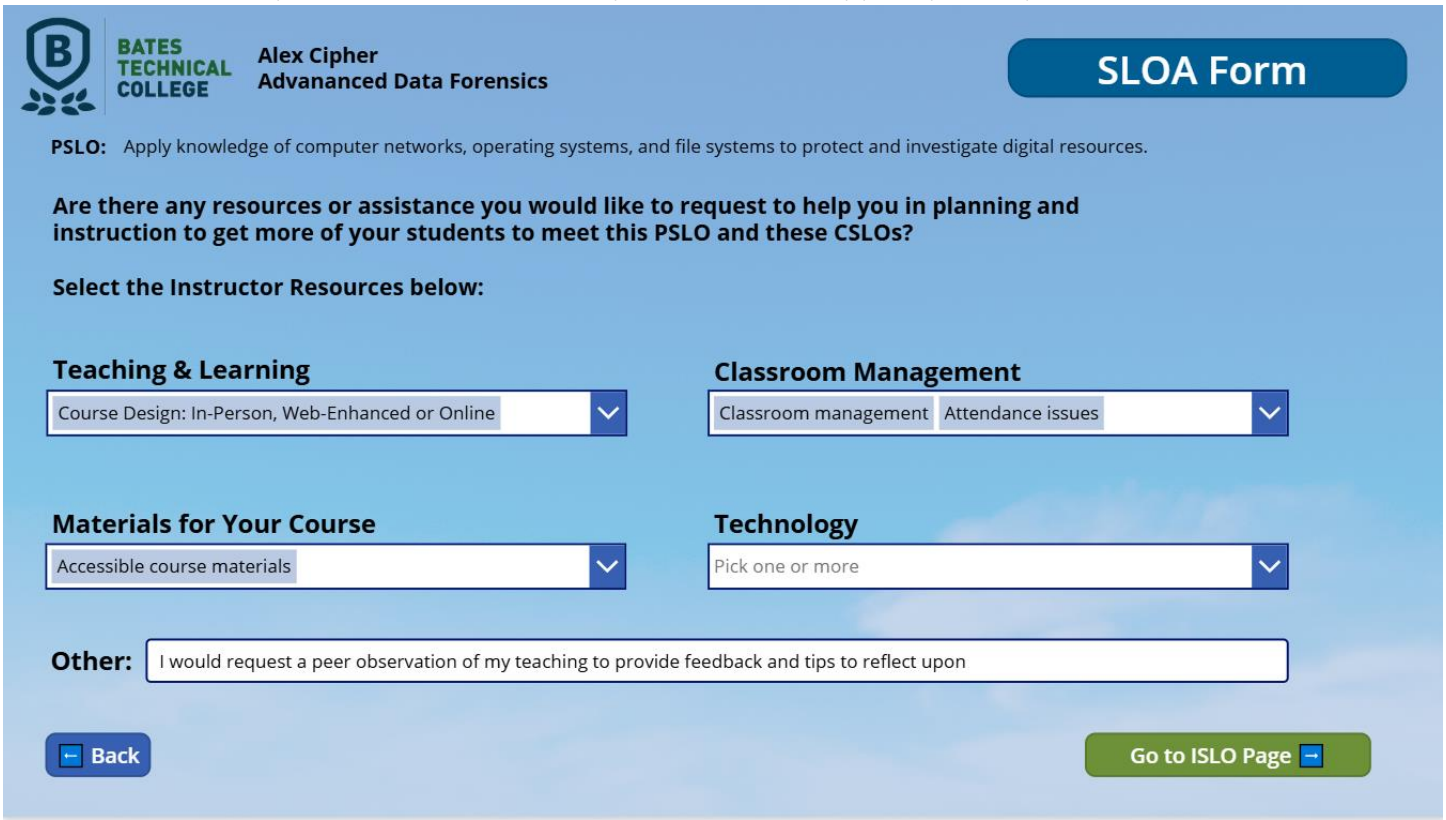


SLOA CSLO 2 (Enter the details of the second CSLO Assessment)

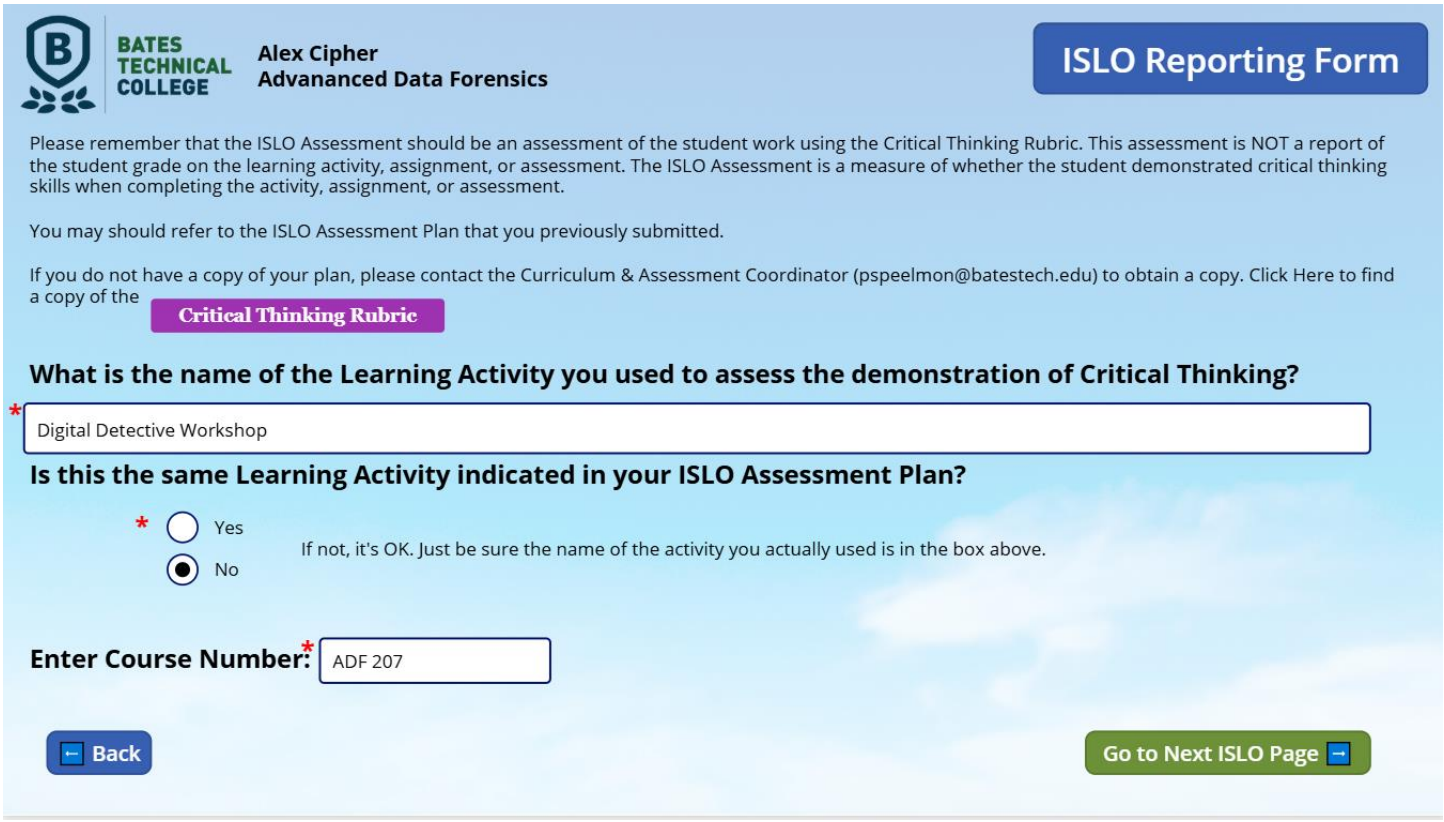


(SLOA CSLO 3 is optional and omitted from this sample)

SLOA Resources Request Screen (Indicate any instructional support you request)



ISLO Reporting Section Screen 1 (Enter the learning activity name and the course)

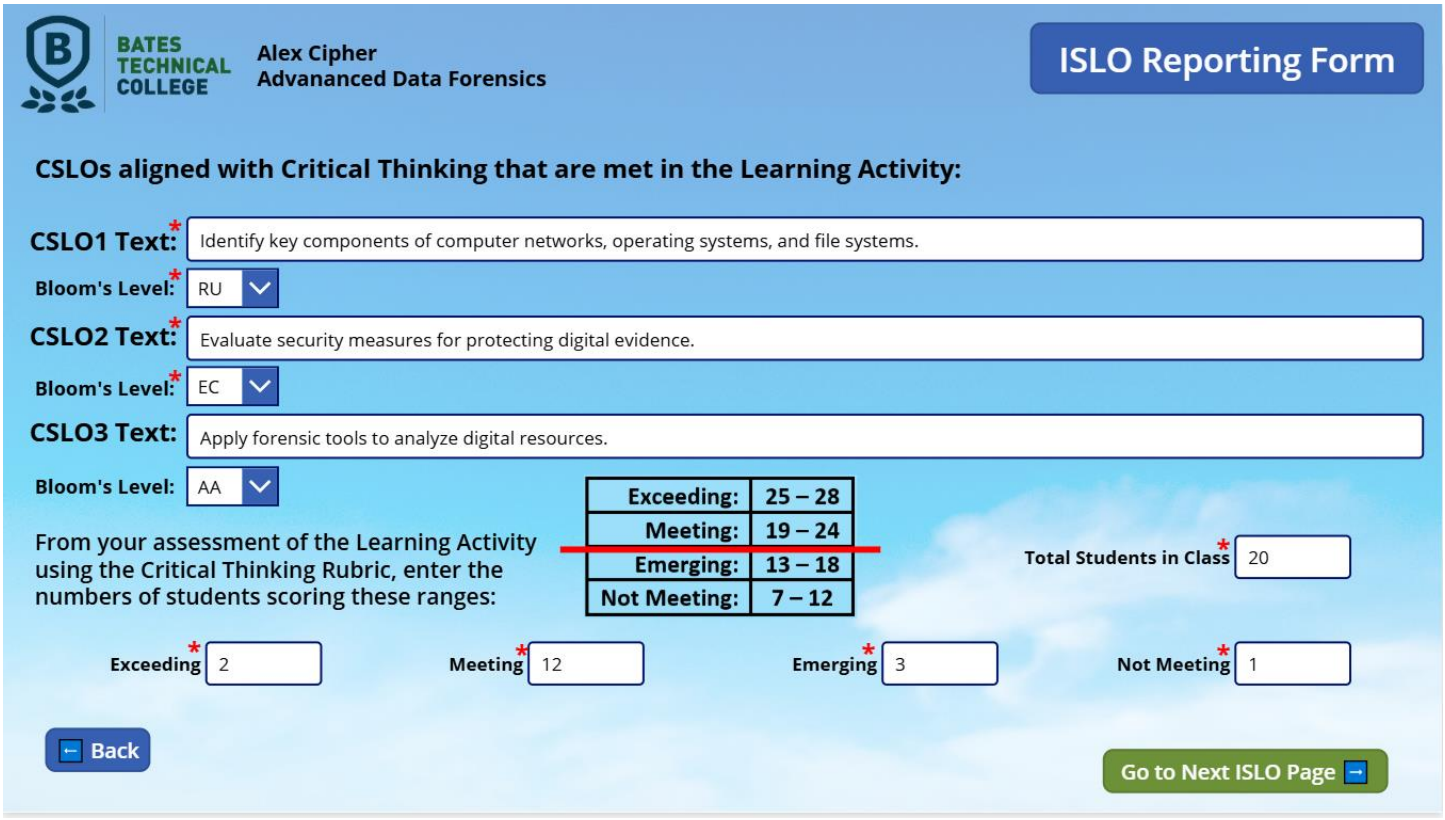


(Critical Thinking Rubric link opens document in separate tab)

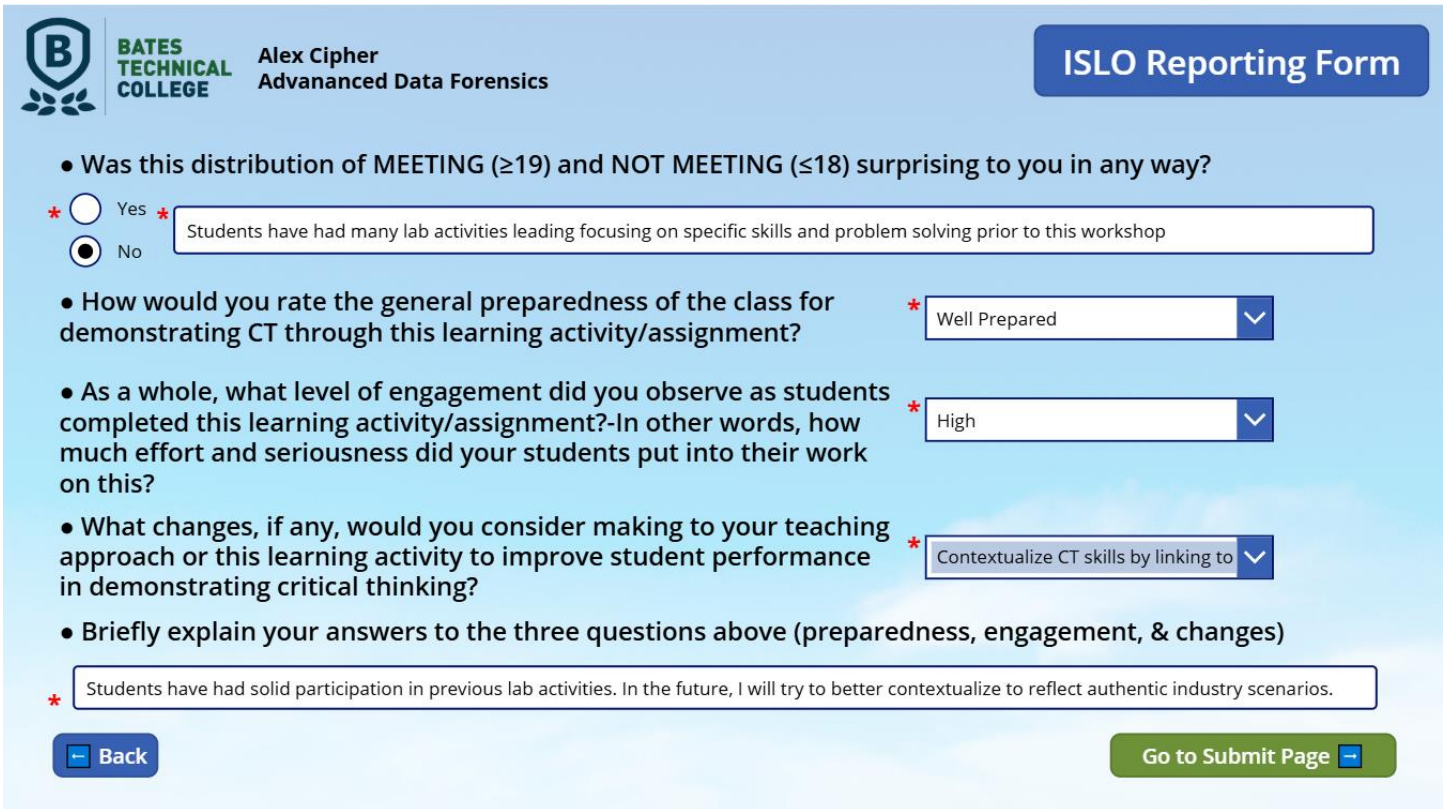
Critical-Thinking Rubric

Criterion	Exceeding (4)	Meeting (3)	Emerging (2)	Not Meeting (1)
Problem Identification	The problem is thoroughly identified, with clear insight and understanding of the complexities involved, bringing relevant thinking from other contexts.	The problem is clearly identified but may miss some complexities or details, with some transfer of thinking from familiar contexts.	The problem is identified, but with limited insight or understanding of key elements.	The problem is poorly identified or misunderstood.
Analysis and Evaluation	Demonstrates thorough analysis and evaluation by integrating multiple perspectives and applying insights from diverse contexts, providing in-depth and well-rounded reasoning.	Demonstrates analysis and evaluation, considering key factors and applying some insights from familiar contexts, but may miss some perspectives or depth in reasoning.	Demonstrates basic analysis and evaluation, but the reasoning may lack depth or overlook some important factors.	Fails to demonstrate adequate analysis or evaluation.
Creativity and Problem Solving	Offers innovative, creative solutions that address all aspects of the task effectively, drawing on insights and techniques from diverse contexts.	Provides effective solutions, drawing on familiar techniques, but may be conventional or miss some key elements of creativity.	Provides basic solutions, but lacks creativity or only addresses part of the problem.	Solutions are inadequate, overly simplistic, or do not address the problem comprehensively.
Application of Industry Standards	Applies industry standards consistently, accurately, and with excellence.	Applies industry standards with minor inaccuracies or inconsistencies.	Demonstrates basic understanding of industry standards but applies them inconsistently or inaccurately.	Does not apply industry standards appropriately or accurately.
Justification of Decisions	Provides strong, logical, and well-supported justification for decisions, using evidence and sound reasoning supported by relevant experiences from different contexts.	Justifies decisions with adequate reasoning, drawing on familiar contexts, though some areas may lack depth or full support.	Provides basic justification for decisions, but the reasoning may be weak or underdeveloped.	Provides little to no justification for decisions, or reasoning is poorly constructed.
Reflection and Self-Assessment	Provides insightful reflection and self-assessment, demonstrating a deep understanding of personal growth and learning, and integrating experiences from different contexts.	Provides adequate reflection and self-assessment, showing an understanding of personal growth and learning, with some integration of experiences from familiar contexts.	Provides basic reflection but lacks depth in identifying strengths, weaknesses, or areas for improvement.	Reflection is minimal or absent; lacks self-assessment or understanding of areas for improvement.
Quality of Final Product	The final product exceeds expectations, meeting all requirements and demonstrating exceptional quality and accuracy.	The final product meets all requirements with minor flaws or inconsistencies.	The final product meets the basic requirements, but has noticeable flaws or inaccuracies.	The final product does not meet the requirements or is of poor quality.

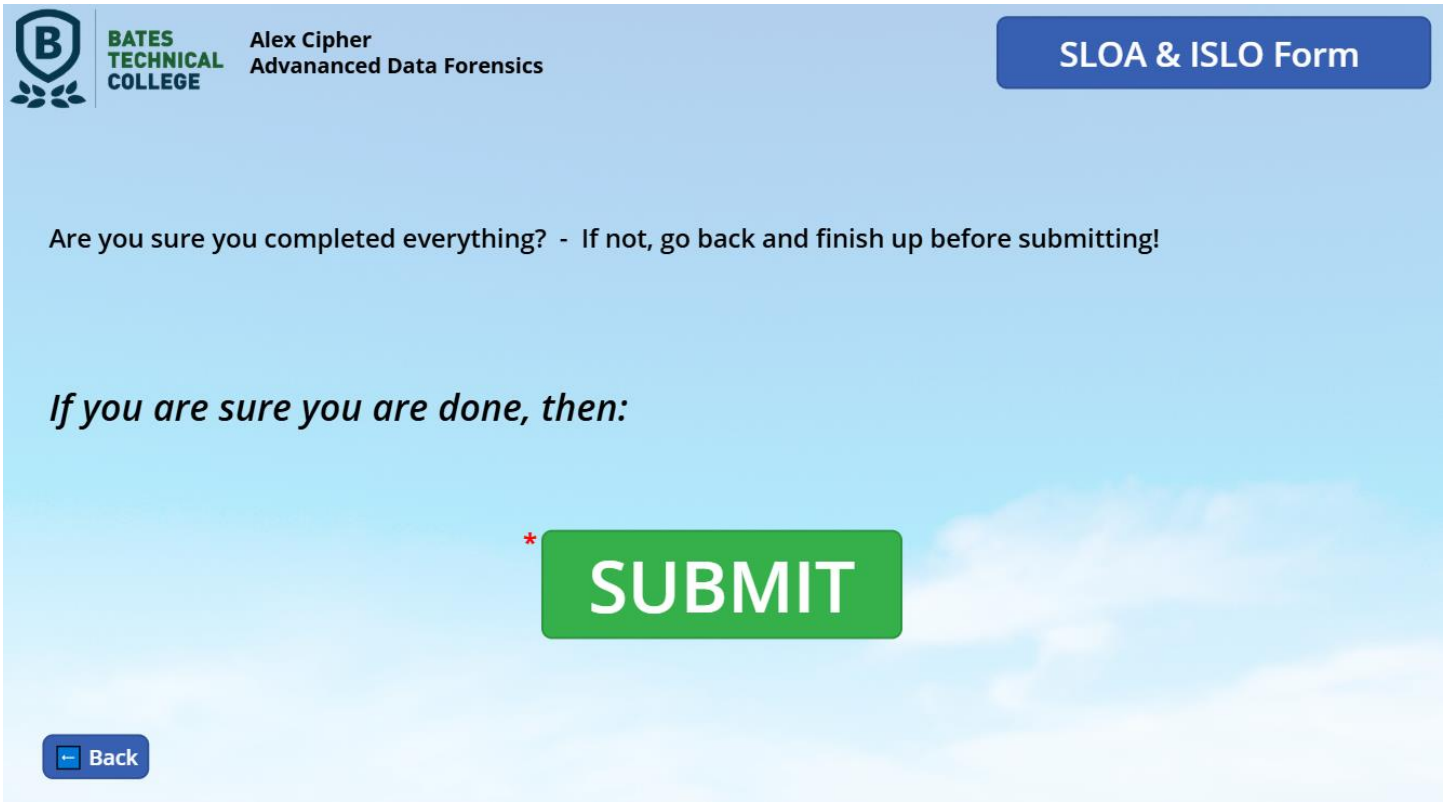
ISLO Assessment Report Section 2 (Enter the critical thinking CSLOs and the assessment data)



ISLO Assessment Report Reflection Questions (Respond to these reflection questions)



(If required fields are left blank, a “completion reminder” will appear at the top of the screen)



(Wait for the “Thank You” screen before closing your browser or app)
